

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Withdrawn) A method for treating liver fibrosis in a mammalian subject comprising administering to the subject a therapeutically effective amount of an FXR agonist.

2. (Withdrawn) The method of claim 1 wherein the FXR agonist is a compound of Formula (II)

wherein X¹ is CH or N; X² is O or NH; R and R¹ are independently H, lower alkyl, halogen, or CF₃; R² is lower alkyl; R³ and R⁴ are independently H, lower alkyl, halogen, CF₃, OH, O-alkyl, or O-polyhaloalkyl.

3. (Withdrawn) The method of claim 1 wherein the FXR agonist comprises a compound of Formula (I):

4. (Original) A method of reducing or preventing development of liver fibrosis comprising administering to a mammalian subject in need of such treatment a therapeutically effective amount of an FXR agonist.

5. (Currently amended) The method of claim 4 wherein the FXR agonist comprises a compound of Formula ~~(II)~~-(I):

wherein X¹ is CH or N; X² is O or NH; R and R¹ are independently H, lower alkyl, halogen, or CF₃; R² is lower alkyl; R³ and R⁴ are independently H, lower alkyl, halogen, CF₃, OH, O-alkyl, or O-polyhaloalkyl.

6. (Currently Amended) The method of claim 4 wherein the FXR agonist comprises a compound of Formula ~~(I)~~ (II):

7 (Withdrawn) A method according to claim 1 where said FXR agonist is not a naturally occurring bile acid.

8. (Original) A method according to claim 4 where said FXR agonist is not a naturally occurring bile acid.

9. (Withdrawn) A method according to claim 1 where said FXR agonist is a synthetic small molecule organic compound.

10. (Original) A method according to claim 4 where said FXR agonist is a synthetic small molecule organic compound.

11. (Withdrawn) A method according to claim 9 where a naturally occurring bile acid is administered concurrently with said FXR agonist.

12. (Currently Amended) A method according to claim 10 where a naturally occurring bile acid is administered concurrently with said FXR agonist.
